NEKTON®

NEKTON Q

Complementary feed for ornamental birds

Available sizes:

30g | 140g | 600g

Aid during Medication & Recovery

NEKTON-Q is a multivitamin compound designed to support birds in overcoming medical treatments – especially antibiotic or sulfonamide injections – and to aid in recovery from tissue or organ hemorrhages.

It enhances infection defense by stimulating antibody production, supports epithelial tissue, stabilizes circulation, and improves blood clotting – particularly important during antibiotic therapy.

Additional Support

Other vitamins, trace elements, and amino acids essential for intermediate metabolism are included in balanced proportions.

Key Vitamins & Functions

Vitamin A: Epithelial protection vitamin – strengthens cell structure defense through enhanced antibody production.
Vitamin E: Protects cell membranes, supports orderly energy metabolism, and maintains immune system integrity.
Vitamin K: Maintains proper blood clotting function.

Indications for Use

For birds with imbalanced blood counts due to medication or stress. For species with naturally increased vitamin K requirements (e.g., fig parrots). For regular vitamin supplementation in healthy birds, NEKTON-S (multivitamin) is recommended.

MADE IN GERMANY

Composition:
Dextrose

Additives:
Nutritional additives per kg:
6,600,000 I.U. vitamin A, 10,000 I.U. vitamin D3, 6,665 mg vitamin E (all-rac-alpha-tocopherylacetate), 670 mg vitamin B1 (thiamine mononitrate), 1,680 mg vitamin B2 (riboflavin), 3,330 mg calcium-d-pantothenate, 10,000 mg niacinamide, 670 mg vitamin B6 (pyridoxine hydrochloride), 224 mg folic acid, 2,000 µg vitamin B12 (cyanocobalamine), 16,670 mg vitamin C (L-ascorbic acid), 6,330 mg vitamin K3 (menadione-sodiumbisulfite), 30,000 µg biotin, 1,190 mg manganese (manganese(II)-sulfate, monohydrate), 1,160 mg zinc (zinc sulfate, monohydrate), 190 mg copper (cupric(II)-sulfate, pentahydrate), 2,380 mg iron (ferrous(II)-sulfate, monohydrate), 95 mg iodine (Calcium iodate, free of water).

Technological additive:
Silicic acid (precipitated and dried)

Feeding recommendation:
Dissolve 1 g (1 measuring spoon) in 250 ml water or 100 g soft food.

Note: Due to the high levels of vitamin D and trace elements, NEKTON-Q should not exceed 5% of the bird's daily ration when used alongside complete feed.

TIP:
Always provide fresh drinking water daily. For long-term vitamin supply, **NEKTON-S** is recommended.

Precautions:
- Store dry, protected from light, at 15–25 °C.
- Do not refrigerate!
- Clean and disinfect drinking and feeding containers daily to ensure hygienic feeding.
