

## NEKTON REP CALCIUM + D3

Complementary feed  
for reptiles

Available in:

30g

65g

130g

550g

### Calcium for Healthy Bones

**NEKTON-Rep-Calcium+D3** provides a reliable calcium supply for all reptiles and amphibians. It supports a stable bone structure in reptiles and helps maintain a balanced mineral intake as part of the daily diet.

### With Vitamin D3 and Amino Acids

The preparation also contains vitamin D3 as well as two important amino acids that support the optimal absorption and utilization of calcium. Application is simple: mix the powder into the feed or dust it onto feeder insects for insectivorous animals.

### Nutrients for a Balanced Metabolism

**NEKTON-Rep-Calcium+D3** complements the diet with essential minerals such as calcium and phosphorus, which are important for bone formation and stability. This supports growth, healthy development, and the general vitality of the animals.

### Focus on Balanced Nutrient Supply

Regular use supports a needs-based supply of vitamins and minerals and promotes the general well-being of reptiles. The preparation also supports a normal calcium metabolism and the long-term well-being of the animals.

Contains 2 amino acids

### Composition:

Calcium carbonate, magnesium carbonate.

### Additives:

#### Nutritional additives per kg:

50,000 I.U. vitamin D3, 500 mg iron (ferrous(II)-sulfate, monohydrate), 491 mg zinc (zinc sulfate, monohydrate), 250 mg manganese (manganese(II)-sulfate, monohydrate), 144 mg copper (cupric(II)-sulfate, pentahydrate), 20 mg iodine (calcium iodate, free of water), 16 mg selenium (sodium selenite).

### Analytical components:

Ca 37 %, Mg 0.02 %, Na 0.02 %

### This special combination of active ingredients provides:

- **Optimal development and maintenance** of a strong skeletal structure
- **Support** of a healthy calcium and phosphorus metabolism
- **Prevention and compensation** of calcium deficiency and related conditions
- **Strengthening** of the musculoskeletal system

### Feeding recommendation:

**0.25g** Nekton-Rep-Calcium + D3 **per 1kg of body weight daily**, or **1,5g once a week**.

One level measuring spoon (enclosed) corresponds to 1,5g NEKTON Rep-Calcium +D3. Not soluble in water, suitable for pollination of food / feed animals.

This supplementary feed should only be fed to reptiles to 3 % of the daily ration because of the over complete feed higher content of vitamin D and trace elements.

### TIP:

Ideal during growth phases, for pregnant or weakened animals, and to support egg-laying periods. **NEKTON-Rep-Calcium+D3** ensures optimal calcium absorption – especially for reptiles without direct access to natural sunlight.

### Precautions:

- Store the product in a **cool, dry, and dark place between 15 °C and 25 °C**.
- We recommend using the product within 3 months of opening.
